

# Bring **LORI LYNN** to Your Library!

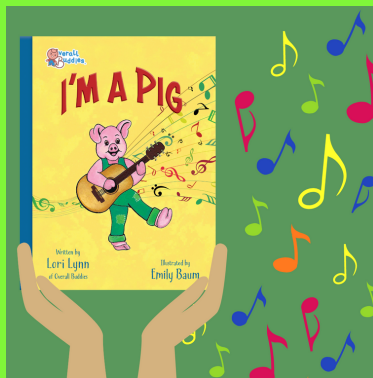

Children and families alike will be sharing hearts in song with Lori Lynn! We will sing, dance, clap, stomp, and hug our way through music! Families and teachers will learn some valuable early literacy tips along the way, with a handout to take home after the event.

Your circulation will improve with Lori Lynn's book topic suggestions from your catalog as literary extensions to her songs.

*"Music ignites every area of our brain. It prepares us for learning, and connects us to one other like nothing else can!"*

*Lori Lynn Ahrends*

CD with 21 original songs and 2 adaptations.

**"Lori Lynn's expertise in child development shines through in every performance! She is engaging with both kids and their grown-ups and, so importantly, knows how to read the mood in the room and adapt as needed. Her original songs are catchy and fun with actions and sign language added to support children's early literacy development. I love watching kids connect with each other and with their grown-ups through Lori Lynn's music."**
